Mr.Houlin Zhao

Director of the Telecommunication Standardization Bureau

International Telecommunication Union

Subject: Congratulations to The 50th Anniversary of CCITT/ITU-T's Foundation

Dear Mr.Houlin Zhao,

Thank you for your kind invitation.

It will be a commemorative day for ITU-T to celebrate the CCITT/ITU-T's 50th Anniversary. I would like to extend my heartfelt congratulations to the 50th anniversary of CCITT/ITU-T's foundation on behalf of CCSA.

50 years ago, when CCITT was established, few people use telephone for communication. No one at that time can imagine telephone have been all-pervading in many countries today. Mobile communication, broadband Internet, data communication and many other new technologies and services emerge like bamboo shoots after a spring rain.

For 50 years, the world has witnessed the great change in ICT fields. No one can be blind to ITU-T's role in this progress. As the most authoritative body in the

world, ITU-T has played an irreplaceable role in the development of ICT industry. Since its establishment, ITU-T has been devoted to the research and development of standards in nearly all ICT fields. ITU-T's standards were accepted by the world and have substantially shaped the way that we live and do business.

I would like to take this opportunity to express my best wishes to ITU-T. Sincerely wish ITU-T to make even greater achievements on the basis of what it has achieved. CCSA would definitely continue to support ITU-T's work to make joint contributions to the development of the world ICT industry.

Sincerely Yours!

Gaofeng ZHU

Chairman of the Council

Baoxin ZHOU

Secretary-General

China Communications Standards Association (CCSA)
